Dear Ms. Brown,

I appreciate, very much, your reconsideration of our request for this meeting. We are concerned at how DEP is approaching this site and its current negotiation for partial clean up with a developer in order to allow for a 228 unit development that has concerning implications for the contamination at the site as well as allowing groundwater and other contamination pathways to continue for an undetermined amount of time, including while inviting new families and residents to the site despite this ongoing condition.

We are also concerned about DEP's seeming prioritization of negotiating a partial clean up plan with a developer rather than pursuing full clean up at the cost of the known responsible parties.

We would like to discuss EPA's historic, present and possible future role in ensuring full clean up of this site for the benefit of the community and exceptional value streams that are the recipients of the site's ongoing pollution.

I am on vacation and internet is difficult where I am. But upon my return I will endeavor to send you a few meaningful documents.

With regards

maya

Hi Maya,

Now that you mentioned that you have questions outside of what DEP should be able to address; I will seek to reschedule the meeting.

Could you please send me the questions you have thus far?

Dear Ms. Brown

The Delaware Riverkeeper Network, representing members of the public, had also requested a meeting with EPA officials. I agreed to join this call you had set up in order to help with time efficiency. Is EPA taking the position it will not meet with a representative of the impacted community over this matter? We are in touch with DEP, the issues we need to discuss with EPA cannot be addressed by DEP officials.

If you can please clarify?

With regards,

maya

**Subject:** Canceled: Bishop Tube Site - State Senator Daylin Leach Inquiry Call (Call-in # & Code TDA)

Hello All,

This meeting has been cancelled. The inquiry has been referred to the more appropriate point of contact at the state PADEP. Thank you
